CASE
MINI EXCAVATORS

MINI EXCAVATORS ENERGIZED ELECTRIFIED ELEVATED

Electric to diesel. True zero to conventional tailswing. Ten models from 1.5 up to 6 metric tons with more on the way. Whether you're in utilities, construction, public works or landscaping, CASE now offers one of the most comprehensive lineups of mini excavators to deliver you the solution that matches your needs.

Built to fit. The job. The operator. Your trucks. Your budget — there's a CASE mini excavator for everyone.

NEW PREMIUM EXPERIENCE SAME CASE GRIT

The all-new CASE D Series mini excavators are both operator first and business friendly with an extremely comfortable and intuitive in-cab experience, and a wealth of standard features that allow you to do more work faster, more profitably, and with greater confidence. All while delivering the speed, responsiveness and power you've come to expect from CASE.

- + **Optimal jobsite access with zero tailswing with standard swing boom**
- + **All-day comfort with a well appointed cab and premium controls**
- + **Backfill like a boss with a standard two-way blade or optional six-way blade**
- + **Standard multifunction and 2nd auxiliary hydraulics (with an optional third circuit)***
- + **Big excavator controls and settings in a much smaller footprint**
- + **Peace of mind with a standard 5 year CASE SiteWatch telematics subscription for collaborative fleet management**

*Standardization varies by model and series

A PREMIUM MINI EXCAVATOR EXPERIENCE

The all-new CASE D Series mini excavators deliver massive performance in a true zero tailswing design, allowing operators to get extremely up close and personal to buildings and obstacles without sacrificing any excavator performance.

KEY FEATURES:

GET UP IN THERE

The true zero tailswing design allows the operator to work confidently against structures and in tight places — all D-series mini's have zero tail swing with the standard counterweight.

EASY ACCESS TO CONTROLS

Easy access to key operational buttons and the monitor dial allows for easy control and greater focus for the operator.

BIG MONITOR. BIG CONTROL.

From three power modes and proportional hydraulic controls to attachment settings and critical machine data, the large seven-inch color LCD monitor makes it easy to operate each machine while allowing the operator to dial it in to their preferences.

EXPAND YOUR TOOLSET

Standard multifunction auxiliary hydraulics and standard 2nd auxiliary hydraulics on select models + an optional 3rd auxiliary circuit puts a whole world of attachments at your fingertips — turning your mini excavator into an all-purpose all-star.

STANDARD STABILITY & BACKFILLING

Whether backfilling a trench or adding stability to a challenging dig, the standard two-way and optional six-way blade gives the operator the confidence needed to make all the moves needed to get the job done.

INTELLIGENCE COMES STANDARD

A 5 year CASE SiteWatch telematics subscription is standard with CASE D Series mini excavators, giving you deeper insights into machine performance, utilization and service schedules — and allowing you to connect with your local CASE dealer to collaborate on fleet management.

*Standardization varies by model and series

HIGH ENERGY LOW MAINTENANCE NO EMISSIONS

The CASE CX15EV electrified mini excavator allows you to work indoors (and out), improve communication on the jobsite, and ultimately lower lifetime owning and operating costs by eliminating all maintenance related to diesel engines.

Delivering enough power to get you through a whole work day, CASE electric mini excavators deliver the same performance as diesel machines while improving the overall operating environment.

GO ANYWHERE. HEAR EVERYTHING.
CASE electric mini excavators are easy to transport and allow you to work indoors thanks to zero emissions output, and the quiet operation improves communications between operators and other workers on site.

FULLY FEATURED CONTROLS
CASE electric minis deliver the same power and performance as diesel-powered machines, with the ability to choose operating modes, adjust control precision, and run/control attachments to get the job done right.

ATTACHED TO SUCCESS
Attachments allow you to do more with your CASE mini excavator with standard auxiliary hydraulics and an optional 2nd auxiliary circuit + the ability to set and save flow settings for optimal performance.

REDUCE DOWNTIME AND INCREASE PRODUCTIVITY
Simplified daily checks with no diesel, no engine oil and no emissions technology help reduce downtime and make these machines extremely easy to own and operate.

PROVEN PERFORMANCE UNCOMMON RESULTS

CASE C Series mini excavators have spent years transforming the way that landscapers, utilities, public works departments, residential contractors and farms dig in everything from decorative lighting to footings.

If it ain't broke, don't fix it — CASE C Series minis are here to make a difference for you today.

- + Standard auxiliary hydraulics expand capabilities and job opportunities
- + Smooth and super-responsive hydraulics and controls
- + Standard pattern changing valve to match operator preference
- + Auto engine functions that simplify and improve operation
- + A tailswing configuration for every job

OPERATE IN COMFORT

A COMPLETE OPERATOR EXPERIENCE

If you can comfortably stay in the seat longer, you'll be able to get more work done. The C Series cab ensures you remain comfortable, whether you spend one hour or an entire day at the controls. An ergonomically designed suspension seat, adjustable arm rests and a spacious environment helps to minimize operator fatigue.

Quieter, temperature controlled and easy to operate, C Series mini excavators offer operator-friendly ergonomic controls that keep you productive all day long. Also, operators can fully customize their work environment and operating preferences to fit their individual needs.

WIDE CAB

The cab provides operators with more space and excellent visibility of both the cab interior and the view around the machine. This puts the operator in a better position to work comfortably.

ADVANCED LCD CLUSTER

Operators can select personal machine preferences. The monitor displays engine rpm, engine oil temperature, water temperature and information for all electronic devices. Buttons provided for auto idle mode, max power mode and travel speed. A security feature prevents the machine from starting without a proper password.

VENTILATION SYSTEM

A full, auto air conditioning system provides the operator with optimum air temperature.

BLUETOOTH RADIO/USB CONNECTOR

Enjoy an advanced audio system with AM/FM stereo and USB/iPod connector. A Bluetooth hands-free feature is available.

ERGONOMIC JOYSTICK

Ergonomically designed joysticks reduce operator fatigue during the workday.

ACCELERATION DIAL WITH LED LIGHT

The acceleration dial is easy to control and recognizable in dark working conditions thanks to an LED light.

ROLLER SHADE

A large upper roof glass provides additional visibility and a roller shade is provided to reduce glare and sunlight.

PEDALS

Pedals are designed for maximum comfort and spaced for low effort.

*Features on these pages are exclusive to the CX57C and CX60C

MAINTENANCE MADE EASY

A CASE HALLMARK: GROUNDLINE ACCESS

When you invest in CASE equipment, you need it to last. We make it simple, and CASE mini excavators are built for easy access and serviceability. From wide-open swing-out access panels to ground-level sight gauges and service points, maintenance takes a matter of minutes. It's just one way we help you get the most uptime and performance out of your CASE mini excavator.

EASY ACCESS TO EVERYTHING

- 1 Engine oil check and fill
- 2 Air filter
- 3 Fuel filter
- 4 Coolant reservoir
- 5 Radiator
- 6 Fuel sight gauge
- 7 Fuel fill
- 8 Hydraulic sight gauge
- 9 Hydraulic fill
- 10 Blade guards
- 11 Grouped grease points

SUPPORT COMES STANDARD

BASE WARRANTY COVERAGE:

2-YEAR/3,000-HOUR FULL MACHINE LIMITED WARRANTY

UPTIME SOLUTIONS

Your CASE dealer can provide solutions to meet all your needs and keep you productive.

STRONGER PRODUCT SUPPORT SOLUTIONS

Your CASE dealer knows how you can best maximize your equipment investment and uptime — with CASE genuine parts, expert service and a complete range of product support solutions including CASE remanufactured and All Makes parts. CASE supports better parts availability and faster deliveries through nine parts distribution centers in North America and a forecasting system to ensure that the right parts will be there when you need them. And only CASE dealers have exclusive access to the Electronic Service Tool (EST) that quickly pinpoints machine issues. Just ask your dealer for details.

FLEXIBLE FINANCIAL OPTIONS

Specialized finance programs and flexible leasing packages are available for industry-leading CASE equipment while no-nonsense warranties and comprehensive protection plans ensure that your equipment is protected. As the only finance company dedicated to CASE, we offer strong products and services designed around your unique service needs.

CASE PlusCare gives you flexibility to customize product support on new machines to help you maintain equipment durability and consistent operation while enhancing jobsite productivity. Protect your investment and maintain value while powering through tough worksite conditions with building a package from these key product-support categories:

- + Maintenance Agreements
- + Purchased Protection Plans
- + Bundled Support Services

CASE SiteWatch telematics — available standard on CASE D-series and EV model mini excavators** — empowers equipment owners and operators to make important decisions about their equipment and business based on current data. CASE SiteWatch has been enhanced with an all-new dashboard, more intuitive navigation and new overview sections that spotlight critical information without requiring the user to search extensively for the data.

*Warranty information listed pertains to diesel models only. Please see your CASE dealer for limitations, exclusions and confirmation of policies in effect; does not reflect electric vehicle warranties

**Check with your local CASE dealer for availability and options by model

A map of North America, including the United States, Canada, and Mexico, is shown in white against a black background. The map is overlaid with a grid of orange dots, representing the locations of CASE dealers across the continent. The dots are most densely packed in the eastern and central United States, with fewer dots in the western and northern regions.

BUILDING A STRONG CASE.

Since 1842, we at CASE Construction Equipment have lived by an unwavering commitment to build practical, intuitive solutions that deliver both efficiency and productivity.

We strive to make it easier for you to implement emerging technologies and new compliance mandates.

Today, our global scale combined with our local expertise enables us to keep customers' real-world challenges at the center of our product development. This focus has led to numerous innovations like the CASE Minotaur™ DL550 compact dozer loader, Ride Control™, adjustable electro-hydraulic controls, Blade Shake, PowerLift™, over-center boom design and the peace of mind that only CASE ProCare provides.

Every CASE machine is backed by more than 315 North American dealer locations, thousands of OEM, remanufactured and all-makes parts, and flexible financing and insurance options that provide the kind of reliable, steadfast support you expect from a professional partner.

We are passionate about improving the lives of others, whether investing in our veterans or raising awareness about local infrastructure initiatives through Dire States. Our goal is to build both stronger machines — and stronger communities.

At the end of the day, we do what's right by you and your communities so that you can always count on CASE.

IMPORTANT: CASE Construction Equipment Inc. reserves the right to change these specifications without notice and without incurring any obligation relating to such change. Availability of some models and equipment builds vary according to the country in which the equipment is used. The illustrations and text may include optional equipment and accessories and may not include all standard equipment. Your CASE dealer/distributor will be able to give you details of the products and their specifications available in your area.

CASE Construction Equipment is biodiesel-friendly.

NOTE: All engines meet current EPA emissions regulations. All specifications are stated in accordance with SAE Standards or Recommended Practices, where applicable.

Always read the Operator's Manual before operating equipment. Inspect equipment before using it, and be sure it is operating properly. Follow the product safety signs and use any safety features provided.
